

## Hungaroring, Budapest (HU)

**Application:** Outside slab  
**Customer:** Hungaroring  
**Object:** Pit lane  
**Size:** 2 500 m<sup>2</sup>  
**Country:** Hungary  
**Year:** 2016  
**Fiber:** Fibrofor High Grade

### Description

The pit lane of the Hungaroring (a racetrack) had to be rebuilt. The surface had to be made in a way to avoid slipping of the cars. The solution was a surface treatment with a broom.

### Key advantages of the Fibrofor High Grade Solution

- Massive time savings (construction time)
- Improved shrinkage characteristics of concrete (safe construction)
- Corrosion free reinforcement (extended service life)
- Surface treatment with a broom is no problem
- Esthetic surface (no sticking out fibers)
